Major Minikes stated it is anticipated that 70,000 soldiers will spend weekends on the Gulf Coast from time to time and that this section had been selected for its wonderful climate which permitted of outdoor activity at all seasons and because of the economic housing advantages which could be obtained here in short time. He stated that the Army guaranteed the conduct of its soldiers and hoped for cooperation of the communities in which they were stationed and stated that for planned recreation for the boys on Saturdays, transportation would be provided for them to and from Bay St. Louis.

Miss Elizabeth Lee then addressed the meeting stating her experience in aiding different communities in organizing for soldier recreation and offering her assistance to the people of Bay St. Louis, and the following committee was unanimously elected to meet and formulate their plans and select committees to assist them, namely: Mrs. A. F. Fournier, General Chairman; Mrs. James Sylvester, Mrs. Margaret Hogan, Commissioner; H. Grady Perkins and Alden J. Mauffray.

ARMY ASKS INCREASE IN NURSES

Red Cross Would Provide 5,000 by July; 2,500 Now On Duty.

Washington, D. C.—The number of Red Cross now on duty with the Army will have to be doubled by July 1, if hospitals and camps are to be adequately staffed, it was declared here by Miss Mary Beard, Red Cross nursing head.

Miss Beard said the Red Cross had been informed by the Army that 5,019 nurses—1,000 more than earlier estimates—would be needed. Approximately half of this number already are in service.

"These new demands, upon the Red Cross First Reserve of Nurses, which is the official reservoir of nursing strength for the Army and Navy," Miss Beard said, "places a tremendous responsibility upon all American nurses. I am confident that their answer will be an overwhelming increase in enrollments in our First Reserve. From the additions to this reserve no difficulty in obtaining the thousands of recruits needed for their nursing services."

The Red Cross First Reserve, she said, now totals approximately 24,000 registered nurses. In the past year enrollments have come in at the rate of more than 1,000 a month, reaching a total of 7,500 in the period November through April, compared with 2,474 in the same six months a year ago. This is an increase of more than 200 per cent.

The Surgeon General of the Army, Miss Beard said, has informed the Red Cross that 5,019 reserve nurses must be on active duty in Army camps by July 1 instead of 4,019 as originally scheduled. With the 5,135 nurses of the regular Army this makes a total of 6,144 Army nurses who will be in the camps and station hospitals by the beginning of the 1942 fiscal year in July.

As of May 1 a total of 2,478 Red Cross nurses had taken their oaths and reported for duty at camps throughout the country as reserve Army nurses. This leaves a total of 2,431 to obtain in the last two months of the current fiscal year.

The authorized total for the Army Nurse Corps in the 1942 fiscal year, including both regular and reserve, is 8,237. Miss Beard pointed out that the Army hopes to build up to this point by next December, which means that between now and then 4,624 Red Cross nurses must be inducted into the Reserve of the Army Nurse Corps.

The Navy Nurse Corps must also increase its staff to keep pace with the expanding personnel of the Navy, Miss Beard pointed out. The Navy now has 522 regular nurses on duty plus 109 reserve nurses, making a total of 631. The Navy Nurse Corps Reserve has been built up to 1,110 and by July 30 must total 1,500. It is understood, Miss Beard said, that this reserve corps, consisting of Red Cross nurses, will be increased materially in the new fiscal year.

ORGANIZATION OF CIVILIAN DEFENSE COUNCIL PRAISED

Charles B. Murphy Receives Letter From Chairman Of Jackson Council.

Charles B. Murphy, President of the Board of Supervisors of Hancock County, and who recently was appointed chairman of the Hancock County Defense Organization, is in receipt of a letter from Lea B. Robinson, State Chairman of Mississippi Civilian Defense Council, with offices in Jackson, as follows:

"The organization of the Hancock County Civilian Defense Council you submitted yesterday was the most complete we have received out of the entire state. We certainly appreciate your cooperation in giving us such a splendid set up and want you to call upon us at any time you feel we can be of any assistance to you."

The first meeting for the organization of a civilian defense council for Hancock County was called recently and was well responded to and a splendid plan was devised upon with chairman of committees named to take care of any emergency which might require immediate action.

With the war situation becoming more critical each day and with our Coast line and its nearness to New Orleans—one of the greatest ports in the country—and navigation thru the Mississippi River forming one of the main avenues of supply to the nation, in the event of war, this section of the United States would be a vital point requiring defense. Therefore, Mr. Murphy realizing the importance of a well organized unit in this section, has given a great deal of time and thought to the organization of the defense council and with the proper cooperation, Hancock County's Defense Council expects to be fully organized and in readiness when the need occurs for its aid.

CURTAILMENT OF ELECTRICITY USED URGED FOR DEFENSE

Drought Slows Power Output For Defense Program.

Commenting on appeals being made by both public and private utility systems in the Southeast for conservation of electric power use, so as to insure a continuous flow of energy of vital defense projects, L. P. Sweatt, Vice President and General Manager of the Mississippi Power Company, urges consumers to voluntarily reduce electric power requirements.

With power requirements at an all time high because of national defense loads, a prolonged drought has reduced river flows in the Southeastern states to the lowest levels in at least a generation. "Voluntary curtailment may cause some temporary inconvenience but it is hoped that such action will prevent a more drastic curtailment a few weeks hence and insure the continuous flow of power to defense activities."

Sweatt said that power systems in the region have been conserving their stored water to the utmost by operating every steam plant and that regardless of cost every available source of power was being used to conserve water supplies and provide energy for defense needs.

"In joining with government agencies in making an appeal for voluntary curtailment of non-essential uses of electric light and power, we feel confident that all of our customers will gladly do their part to make it possible for defense activities in the Southeast to proceed without pause."

WPA ROLLS WILL BE CUT SHARPLY BEFORE JULY 1ST.

Outlined by House Group by Howard O. Hunter, Acting WPA Commissioner.

Washington, May 29.—Sharp cuts in WPA rolls between now and July 1 to start and keep the new fiscal year at the 1,000,000 work relief level recommended by President Roosevelt were reported today, to have been outlined to a House group by Howard O. Hunter, acting WPA Commissioner.

There were 1,497,000 on WPA rolls on May 1, but the figure was rapidly declining as defense and other industries absorbed employables.

Hunter appeared before a House appropriations subcommittee for nearly three hours yesterday, testifying on the president's request for \$886,000,000 for relief for the fiscal year starting July 1, a third less than this year's expenditure. He asked to return today for further questioning.

Hunter was reported by committee men to have advocated abandonment of the present system of staggering WPA employment, whereby fewer are kept on the rolls in summer months and a large number in the winter when unemployment is greater.

He favored instead, members said, starting the new fiscal year with 1,000,000 relief workers and maintaining the lists at that level throughout the year on the theory that defense work will provide an upsurge by next winter that will obviate increasing the relief load.

The president told Congress his appropriation request would provide for a monthly average employment of 1,000,000 persons, compared with a monthly average for this year of 1,700,000.

The committee was said to have been told yesterday that to take care of all unemployed would require \$1,700,000,000 or almost double the president's request.

"ROAD TO ZANZIBAR" PROVES MIRTHY HOLLYWOOD HIGHWAY

To Be Shown at A. & G. Theater Sunday and Monday.

The cinematic big news to report today is that Bing Crosby, Bob Hope and Dorothy Lamour are back together again in a second movie. The reunion of these top laugh and song stars will be hailed by audiences at the A. & G. Theater, Sunday and Monday, where their new Paramount comedy with music, "Road to Zanzibar," will be shown.

Having proved scintillating traveling companions in their first picture together, "Road to Singapore," Bing, Bob and Dorothy once again show in their new picture that journeying with them is a jolly experience. With fresh gags, hilarious situations and a cargo of brand new song numbers, some comic, some romantic and some of the ballad variety, we hit the road once again with this pleasant trio. Another thing to be thankful for about the new comedy with music is that it was directed by Victor Scherzinger, the man who handled the megaphone on "Road to Singapore."

Both pictures were written by Frank Butler and Don Hartman. In "Road to Zanzibar" Bing and Bob are presented as a pair of happy-go-lucky carnival men barnstorming their way through Africa. Hope is Fearless Frazier, huge for all the wild stunts that Bing Crosby thinks up make their carnival acts more sensational.

Dorothy in this film doesn't wear a sarong. It's something more daring—a scanty dress made of fern leaves. Of course, Bing and Bob are more romantic than ever in this film.

19,374,525 Used Cars Are Sold by Chevrolet Dealers

That's a lot of used cars to accumulate as a result of Chevrolet new cars and truck sales during the past fifteen years, according to the statement made by Al Volpert, local Chevrolet dealer today. These figures are based on authentic information furnished by the Chevrolet statistical department.

"Used cars are coming into dealers stock and are being made ready for sale at the rate of approximately 200,000 units every month. It would not be possible to sell this great number of used cars unless Chevrolet Dealers followed a very definite program under which all used cars are thoroughly reconditioned and guaranteed thus assuring new owners absolute satisfaction. The large number of used cars and trucks sold by us in Hancock county is proof that we have established a record and a reputation in common with Chevrolet Dealers everywhere, for selling dependable used cars," Mr. Volpert said.

AN APPEAL TO ALL USERS OF ELECTRIC LIGHT, HEAT, POWER

The national defense program calls for an all-time high in production. Production of raw materials, aluminum, steel and finished products must go forward on an unheard-of scale.

The Southeastern area is a large contributor to this defense production. In addition, the area has been chosen for the location of many Army cantonments, air training bases, munitions plants and other defense facilities.

The defense activities require a great volume of power. The continued supply of this power throughout the emergency must not be interrupted or curtailed. This year an unprecedented drought threatens that power supply throughout the Southeast.

Large additions to power supply for the region are now under top speed construction by TVA and private companies. They are nearing completion. But, until these new sources of supply are actually delivering power, and especially during the next few months, it is imperative in the interest of defense that power be carefully conserved.

Even if normal rainfall should end the drought, you will still be asked not to waste power. For every kilowatt hour you conserve at this time adds that much to the nation's capacity for defense.

The Federal Power Commission and the public and private power agencies in the area are cooperating on improved arrangements for interchange between the several systems in order to make every potential kilowatt hour available. But this may not prove enough to meet the emergency.

The undersigned governmental agencies and companies, therefore, appeal to the public to join immediately in a voluntary campaign of economy in the use of electricity. Such economy of use is a patriotic necessity.

If the arrangements for interchange of power are successful in making larger supplies of electricity available and the response to this appeal is sufficiently general and spontaneous, further drastic curtailment may be long postponed, or perhaps, forestalled altogether.

Your cooperation is needed.

BING CROSBY AND GLORIA JEAN IN "IF I HAD MY WAY"

Picture Has Harmonious Mixture of Songs, Mirth, At Ortte Theater.

Bing Crosby shares honors with his youngest co-star, little Gloria Jean, in a bright new Universal comedy, "If I Had My Way," which will open at Ortte Theater, Sunday.

Gay times, the best Bing has had in a long while, are enlivened by duet arrangements for Bing and Gloria that are particularly effective.

And with the addition of a clever supporting cast and an excellent screen play, "If I Had My Way" is altogether an appealing film.

A highlight of "If I Had My Way" is the return of five former stage stars for another appearance in the bright lights. Blanche Ring sings her famous song, "Rings On My Fingers," and Eddie Leonard, the Minstrel man, revives his ever popular "Ida." Other one-time greats include Tricie Friganz, Grace La Rue and Jul an Ellings.

Others in the cast are El Brendel, famous Swi in dialect comedian, Charles W.inger, Claude Dodd, Nana Bryant and Donald Woods.

The picture centers around Bing and Brenda who "adopt" Gloria when her father is killed in an accident. The trio ultimately find themselves in possession of a cafe in which Bing and Gloria furnish the entertainment, aided by the five famous ex-vaudevillians.

David Butler is the producer-director of the picture, an original story by William Conselman, David Butler and James K. Kern.

Our Lady of the Gulf Church was filled to capacity on last Sunday evening at 5 o'clock when a large number of small children and infants were brought to the church for the annual crowning of the statue of the Blessed Virgin as the culmination of the monthly devotions every month of May.

Catherine, Norma Benigno, little daughter of Mr. and Mrs. Anthony Benigno, was chosen to place the gold crown on the head of the statue and the great number of little children clad mostly in white with wreaths upon their heads and carrying lilies made a very impressive and beautiful sight.

This beautiful service was concluded with Benediction of the Most Blessed Sacrament with the Very Rev. A. J. Gmelch, whose special charges are always the children, officiating.
